

INDUSTRIAL FASTENERS & GLOBAL SOURCING

**Accurate products.
Required quality.
Reliable delivery.**

**BUILT AROUND YOUR
REQUIREMENT**

Specification alignment

Quality documentation

Competitive sourcing

Reliable export
coordination

Industrial fasteners, specialty hardware and cable-management solutions for importers, distributors and OEMs.

SOURCE | TRUST | DELIVER

ENGINEERED FOR CONFIDENCE. SOURCED FOR GROWTH.

ABOUT VISIORY GLOBAL

Your sourcing partner, focused on your growth.

We help customers source the right product, at the required quality, at a competitive cost, and on time - so they can serve their customers better and grow their business.

01 ACCURACY

Technical alignment against standards, drawings, dimensions and application requirements.

02 QUALITY

Quality-focused sourcing with documentation and testing coordinated as agreed.

03 COMPETITIVENESS

Commercial solutions built around the right manufacturing source and supply requirement.

04 RELIABILITY

Clear communication, export coordination and dependable supply execution.

OUR ROLE

An extension of your sourcing team - aligning specification, manufacturing capability, quality, commercial competitiveness and delivery into one dependable supply solution.

WHY VISIORY GLOBAL

Why customers choose VISIORY GLOBAL

Accurate product specifications

Clear technical alignment before sourcing and production.

Consistent quality

Product and documentation matched to agreed requirements.

Competitive commercial solutions

Source selection based on product, volume and supply need.

Responsive communication

Practical updates and transparent coordination throughout the order.

Reliable delivery commitments

Export and logistics support focused on dependable execution.

Flexibility for special requirements

Drawing-based sizes, materials, finishes and packaging.

OUR OBJECTIVE

Accurate products. Required quality. Competitive solutions. Reliable delivery - helping our customers serve their markets with confidence and grow their business.

PRODUCT RANGE

One source. Multiple fastening solutions.

01 High Tensile & Structural Bolts

Hex · Flange · HSFG · Carriage · Eye · U/J/L/T

02 Socket & Precision Screws

Cap · Button · CSK · Low Head · Shoulder · Set

03 Nuts

Hex · Heavy Hex · Nyloc · Flange · Weld · Coupling

04 Washers

Plain · Spring · Hardened · Structural · Star · Tab

05 Stainless Steel

Bolts · Screws · Nuts · Washers · Threaded Rods

06 Anchors, Rivets & Studs

Wedge · Sleeve · Pin · Rivet · Threaded Studs

07 Cable Management

Nylon · Heavy Duty · UV · Releasable · Stainless

08 Custom Fasteners

Security · Drawing-Based · Special Shapes · OEM

High Tensile & Structural Bolts

High-strength fastening for structural steel, construction and demanding load-bearing applications.

PRODUCT		SIZE / RANGE	MATERIAL / GRADE	STANDARD	APPLICATION
Hex Head Bolt / Screw		M4-M80*	10.9*	ISO 4014 / 4017*	Machinery / Construction
Flange Bolt		M4-M24	8.8 / 10.9	DIN 6921	Automotive / Assembly
HSFG Structural Bolt		M12-M36	10.9S / specified	Project specification	Structural steel
Carriage Bolt		M5-M12	4.6 / 8.8	DIN 603	Fabrication / Assembly
Eye Bolt		M6-M48	As specified	DIN 580 / DIN 444	Lifting / Rigging
U / J / L Bolt		Drawing / standard	As specified	DIN 3570 / Drawing	Pipe support / Anchoring

*Reference-style values marked with an asterisk are for buyer orientation. Final availability and specification are confirmed against RFQ.

Socket & Precision Screws

Precision socket fasteners for machinery, compact assemblies and high-strength applications.

PRODUCT		SIZE / RANGE	MATERIAL / GRADE	STANDARD	APPLICATION
Socket Head Cap Screw 		M1.6-M64*	12.9*	ISO 4762 / ASTM A574M*	Machinery / Precision
Socket Low Head Cap Screw 		M4-M20*	10.9*	Specification dependent	Low-clearance
Socket Head Shoulder Screw 		M6-M24*	12.9*	ASME B18.3.3M*	Moving / Precision
Countersunk Socket Screw 		M3-M20*	12.9*	ISO 10642*	Flush-mount
Button Head Socket Screw 		M3-M12*	12.9*	ISO 7380*	Machinery / Assembly
Socket Set / Grub Screw 		M3-M20*	45H*	ISO 4026-4029*	Shaft fixing

*Reference-style values marked with an asterisk are for buyer orientation. Final availability and specification are confirmed against RFQ.

Hex Nuts & Specialty Nuts

Standard and specialty nuts for secure assembly, vibration resistance and heavy-duty use.

PRODUCT		SIZE / RANGE	MATERIAL / GRADE	STANDARD	APPLICATION
Hex Nut		M6-M42	8 / 10 / 12	ISO 4032 / DIN 934	General engineering
Heavy Hex Nut		M10-M56	As specified	ASTM / ASME	Structural / Heavy duty
Nyloc Nut		M6-M24	8 / 10	DIN 982 / DIN 985	Vibration resistant
Flange Nut		M3-M24	8 / 10	DIN 6923	Automotive / Machinery
Hex Weld Nut		M4-M16	As specified	DIN 929	Sheet-metal fabrication
Coupling Nut		M5-M30	As specified	DIN 6334	Stud / rod extension

*Reference-style values marked with an asterisk are for buyer orientation. Final availability and specification are confirmed against RFQ.

Washers

Load-distribution, locking and vibration-control solutions for industrial assemblies.

PRODUCT		SIZE / RANGE	MATERIAL / GRADE	STANDARD	APPLICATION
Plain Washer		M2-M56	As specified	DIN 125 / ISO 7089	Load distribution
Flat Section Spring Washer		M3-M39*	HV 430-530*	DIN 127 B*	Vibration resistance
Square Section Spring Washer		M3-M39*	HV 430-530*	DIN 7980*	Vibration resistance
Hardened Washer		M12-M30*	HV 300-370*	IS 2016*	High-strength
Hardened Steel Washer		M12-M56*	HRC 26-45 / 38-45*	ASTM F436M*	Structural
Star / Tooth Washer		M2-M24	As specified	DIN 6797 / 6798	Electrical / Locking

*Reference-style values marked with an asterisk are for buyer orientation. Final availability and specification are confirmed against RFQ.

Stainless Steel

Corrosion-resistant fastening solutions for industrial, marine and outdoor applications.

PRODUCT		SIZE / RANGE	MATERIAL / GRADE	STANDARD	APPLICATION
Socket Head Cap Screw 		M3-M30	A2 / A4	DIN 912 / ISO 4762	Machinery / Corrosive
Hex Head Screw / Bolt 		M3-M30	A2 / A4	DIN 931 / 933	General engineering
Hex Nut 		M3-M30	A2 / A4	DIN 934 / ISO 4032	General assembly
Plain Washer 		M3-M64	A2 / A4	DIN 125 A	Load distribution
Spring Washer 		M3-M36	A2 / A4	DIN 127 B / 7980	Vibration resistance
Threaded Rod / Stud 		M3-M36	A2 / A4	DIN 975 / specified	Construction / Assembly

*Reference-style values marked with an asterisk are for buyer orientation. Final availability and specification are confirmed against RFQ.

Anchors, Rivets, Pins & Studs

Reliable fixing and joining solutions for concrete, masonry, fabrication and engineering.

PRODUCT		SIZE / RANGE	MATERIAL / GRADE	STANDARD	APPLICATION
Wedge Anchor		M6-M24	Carbon Steel / SS	Expansion type	Concrete fixing
Sleeve Anchor		M6-M20	Carbon Steel / SS	Sleeve expansion	Masonry / Concrete
Pin-Type Anchor		M6-M20	Carbon Steel / SS	Pin expansion	Light / medium fixing
Pop Rivet / Rivet Nut		Various	Aluminium / Steel / SS	As specified	Sheet-metal joining
Threaded Stud		M3-M60	Carbon / Alloy / SS	DIN / ASTM / drawing	Construction / Machinery
Double-Ended Stud / Pin		Drawing / standard	As specified	Project specification	OEM / Equipment

*Reference-style values marked with an asterisk are for buyer orientation. Final availability and specification are confirmed against RFQ.

Cable Ties & Cable Management

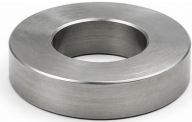

Cable-management solutions for industrial, electrical, outdoor, marine and identification needs.

PRODUCT		SIZE / RANGE	MATERIAL / GRADE	STANDARD	APPLICATION
Standard Nylon Cable Tie		Various	PA66	Product specification	Cable management
Heavy-Duty Cable Tie		Various	PA66	High tensile option	Industrial bundling
UV-Resistant Cable Tie		Various	UV-stabilized nylon	Outdoor grade	Solar / Infrastructure
Releasable Cable Tie		Various	Nylon	Reusable design	Service / Temporary
Stainless Steel Cable Tie		Various	304 / 316	As specified	Marine / High temp
Identification / Specialty Tie		Various	As specified	As specified	Panel / Identification

*Reference-style values marked with an asterisk are for buyer orientation. Final availability and specification are confirmed against RFQ.

Specialty & Custom Fasteners

Application-specific fasteners developed against drawings, samples and technical requirements.

PRODUCT		SIZE / RANGE	MATERIAL / GRADE	STANDARD	APPLICATION
Security / Anti-Theft Bolt		Drawing / standard	Carbon / Alloy / SS	Customer specification	Security / Infrastructure
Custom Bolt		As drawing	As specified	Customer drawing	OEM / Engineering
Custom Screw		As drawing	As specified	Customer drawing	OEM / Precision
Custom Nut		As drawing	As specified	Customer drawing	OEM / Engineering
Custom Washer		As drawing	As specified	Customer drawing	OEM / Engineering
Special Shape Fastener		As drawing	As specified	Customer drawing	Application-specific

*Reference-style values marked with an asterisk are for buyer orientation. Final availability and specification are confirmed against RFQ.

TECHNICAL SUPPORT

Materials, Finishes & Quality

Materials

Carbon Steel	Standard property classes as specified.
Alloy Steel	High-strength fastening applications.
Stainless Steel	Common options include 202 / 304 / 316, product dependent.
Other Materials	Brass, aluminium or specified materials where applicable.

Finishes

Plain · Black Oxide · Zinc Plated · Hot-Dip Galvanized · Zinc Flake · Zinc-Nickel · PTFE · other specified systems.

Quality support

Material certificates

Dimensional inspection

Mechanical test reports

Hardness / tensile test reports

Surface / coating documentation

Customer-specific documentation

DIN ISO ASTM ASME BS IS

Testing and documentation availability depends on product, order requirement and agreed specification.

HOW WE WORK

A simple sourcing process

-
- | | | |
|----|--------------|---|
| 01 | SHARE | Drawing, sample, dimensions or specification. |
|----|--------------|---|
-
- | | | |
|----|---------------|--|
| 02 | REVIEW | Technical and commercial requirement review. |
|----|---------------|--|
-
- | | | |
|----|---------------|--|
| 03 | SOURCE | Identify suitable manufacturing and supply solution. |
|----|---------------|--|
-
- | | | |
|----|---------------|--|
| 04 | SAMPLE | Samples or pre-production pieces where required. |
|----|---------------|--|
-
- | | | |
|----|---------------|---|
| 05 | SUPPLY | Production, quality documentation, packaging and export coordination. |
|----|---------------|---|
-

Send us your RFQ.

Send us your drawing, sample or product specification.
We will review the technical requirement and provide a commercially aligned sourcing solution.
